Case 2004-00092

To Whom It May Concern:

The West Shelby Water District respectfully requests that the Public Service Commission allow us to make an adjustment in our rates in accordance with 807 KAR 5:068 Purchased Water Adjustments for Water Districts.

Our supplier, Louisville Water Company, has informed the District that an increase will take effect May 1, 2004. The District purchased 270,440,200 gallons of water from February 2003 through February 2004 at a total cost of \$384,645.56. The District sold 228,173,300 gallons of water to its customers. With the wholesale increase the new cost is expected to be \$412,369.48. The difference between the old cost and new cost will be \$27,723.92. The incremental cost in terms of water sold is \$0.13 (\$0.1215) cents per 1,000 gallons. We propose to raise each gallonage block that amount.

The following documents are enclosed:

- Exhibit A: Purchase Water Adjustment for Water District Form (PSC Form)
- Exhibit B: Supplier's Notice of Changed Rate
- Exhibit C: Statement of Water Purchases
- Exhibit D: Statement of Water Sold
- Exhibit E: Increase water cost calculations
